**\*\*\*\*\*Please send us a couple pictures of your child working on their school work each week. \*\*\*\*\***

The cream of tartar is optional, but if not used the playdough will not last as long. It is used as a preservative. The kool-aid is for color and it makes it smell good but if you do not have any food coloring will also work. We are also attaching this video showing how to make playdough with Jello.
