Dear Students and Parents,

This letter serves as the District's annual technology privacy notice consistent with Ohio Revised Code Sections 3319.325 - 327

## General Monitoring of School-Issued Devices

Please be aware that the District, either directly, or through a technology provider, may elect to generally monitor all school-issued devices (as that term is defined by R.C. 3319.325). The monitoring will typically be for student and/or staff safety purposes or for the purpose of locating lost district property. The District generally monitors these features for noncommercial educational purposes of instruction, technical support, and/or exam proctoring. Additionally, these features are generally monitored as a necessary precaution for preventing and/or responding to threats to life or safety.

## Technology Provider Contracts

The district will list on the webpage (location below) a list of all technology providers that have access to students' educational records for the purpose of providing curriculum, testing, or assessment services. You may review a complete copy of the District's contract with any of the providers listed and new providers will be added upon the agreement of any future contracts. If you have questions, or wish to relay concerns, please contact James Buckey at [james.buckey@rollinghills.k12.oh.us](mailto:james.buckey@rollinghills.k12.oh.us).
